Peng Zihao

Distributed systems and AI Agent engineering.

xiaobazeo@gmail.com | github.com/xiaobazeo | xiaobazeo.com

Experience

AI Full-Stack Engineer (Xiaomi)

Jul 2024 - Present

- Developing task scheduling and workflow platforms supporting 2M+ monthly process instances, 1M+ daily algorithm tasks, and 40+ business lines.

- Building an internal agent platform with 10+ reusable workflows serving 70+ users, isolated runtime environments and execution visibility.

Selected projects

Agent Workflow Platform

Jan 2026 - Present

Multi-stage agent sessions, standardized tools, Kubernetes runtime isolation and SSE execution traces.

- Reduced average Pod initialization from about 10 seconds to about 3 seconds.

- Supported 10+ reusable workflows serving 70+ users.

Workflow Engine

Jul 2024 - Present

Configurable DAGs, decoupled task management and asynchronous Webhook delivery.

- Reduced new-business integration time by 40%.

- Supported 2M+ monthly workflow instances across 40+ business lines.

Distributed Task Scheduler

Jul 2024 - Present

gRPC task dispatch, heartbeats and elastic compute for 1M+ daily algorithm tasks.

- Supported 1M+ daily algorithm tasks.

- Improved resource utilization by 50%.

Open source

PI-Desktop | 7k+ GitHub stars (2026-10) | github.com/vastsa/PI-Desktop

A local-first, extensible desktop workspace for AI agents.

Education

Hunan University of Technology | B.S. in Computer Science and Technology

Sep 2020 - Jun 2024

Skills

Backend & data: Java / Spring Boot / MyBatis / MySQL / Redis / RocketMQ

Systems & infrastructure: Kubernetes / gRPC / Distributed transactions / Task scheduling

Agent engineering: Agent SDK / MCP / Skills / SSE / Trace / Perf
